WORK EXPERIENCE

The Leather Laundry - Web Developer *Dec 2025 - Present*

- Built and maintained the live WordPress website (theleatherlaundry.com) with responsive pages, custom themes, and features using PHP, HTML, CSS, and JavaScript.
- Improved site speed and Core Web Vitals; integrated forms, plugins, RESTful APIs, and third-party services with a mobile-first UI/UX.
- Performed malware removal, security hardening, and routine audits to safeguard site integrity and uptime.
- Built the Shopify store and automated spreadsheet workflows with Google Apps Script, cutting manual effort and streamlining operations.

Ampere Solutions Private Limited - Web Developer Intern *Sep 2025 - Dec 2025*

- Developed and customized the WordPress website (amperesolutions.store) with theme customization, responsive design, and performance optimization.
- Implemented security improvements and ongoing maintenance to ensure site reliability and uptime.

PROJECTS

Attendance Tracker (internal tool)

- Designed and developed a fully custom employee attendance tracking dashboard with live search, department filters, and real-time Present/Absent/Half-Day/Late summaries.

The Leather Laundry - theleatherlaundry.com, theleatherlaundry.online

- Complete WordPress development, performance optimization, responsive design, malware removal, and security hardening.

Kanzo - kanzo.in

- Built and managed a Shopify store with product setup, theme customization, and a responsive storefront design.

The Export Business - theexportbusiness.com

- Complete website development with responsive design and a business-focused structure.

Scandex Smart Elevators - scandexsmartelevators.com

- Corporate website development with responsive UI and SEO-friendly structure.
